```
1 angular.module("myApp", []).controller("myController", function($scope, $http) {
2     $scope.newUser = {};
3     $scope.info = "";
4
5     $http({
6         method: 'GET',
7         url: 'https://my-json-server.typicode.com/shamimsjava/Employee/users'
8     }).then(function(response) {
9         $scope.users = response.data
10    });
11
12    $scope.saveUser = function() {
13        $scope.users.push($scope.newUser);
14        $scope.info = "New Book Added Successfully !";
15        $scope.newUser = {};
16    };
17
18    $scope.selectUser = function(user) {
19        $scope.clickedUser = user;
20    };
21
22    $scope.deleteUser = function() {
23        $scope.users.splice($scope.users.indexOf($scope.clickedUser), 1);
24        $scope.info = "Book Deleted Successfully !";
25    };
26
27    $scope.clearInfo = function() {
28        $scope.info = "";
29    };
30    });
```

RESTful API URL now
I go to this link

```

6:
  book_isbn: "89345"

```

My RESTful Api data in json formate

```
my-json-server.typicode.com/shamim-sarker
https://my-json-server.typicode.com/shamim-sarker/books
